

Jacek Lipowczan

A perfectionist. He paints without hurry. Each movement of his paintbrush guides us, step by step, to the Artist's "fairy tale world"..., which at a first glance makes us laugh but after a while we notice all those deeply hidden human weaknesses. The fortress of Jacek Lipowczan's Creativity is based on a very solid foundation: namely on detail. All the individual fragments constitute the rhythm of each story told by the Artist's paintings and they surprise us with the multiplicity of meanings. Oscillating between realism and fantasy, they seem not to recognise the borders between time and space.
